Annual Index

First Quarter 1–40 *Third Quarter 41–80*
Second Quarter 81–124 *Fourth Quarter 125–164*

SUBJECT INDEX

COMPOSITE DESIGN
Removal of Yield Stress Limitation for Composite Tubular Columns—*John R. Kenny, Donald A. Bruce and Reidar Bjorhovde* 1
Composite Semi-Rigid Construction—*Roberto T. Leon* 57

COLUMNS
Column Base Plate Design Table—*Surendra J. Chhabra* 12
The Accuracy of Column Stability Calculations in Unbraced Frames and the Influence of Columns with Effective Length Factors Less Than One—*Jerome F. Hajjar and Donald W. White* 81
Discussion—Design of Pipe Column Base Plates Under Gravity Load—*Michael Valley* 109
Correction—Discussion of Design of Column Base Plates Under Gravity Load—*Thomas Sputo and Nestor R. Iwankiw* 110
Practical Approaches in Mill Building Columns Subjected to Heavy Crane Loads—*Kasi V. Bendapudi* 125
A Practical Approach to the *Leaning* Column—*Louis F. Geschwindner* 141

FRAMES
Frame Response Considering Plastic Panel Hinges—*David J. Fielding, Ph.D., P.E.* 31
Optimal Design of Steel Frames to Enhance Overall Stability—*S. Pezeshk and K. D. Hjelmstad* 48

BEAMS
Local Buckling Rules for Rotation Capacity—*M. L. Daali and R. M. Korol* 41

BRIDGES
Ductility of Non-Compact Steel Bridge Beams—*Sami W. Tabsh, Ph.D., P.E.* 21

CONNECTIONS
Geometric Properties of Hot-Rolled Steel Angles Including the Effects of Toe Radii and Fillet—*Seshu Madhava Rao Adluri and Murty K. S. Madugula* 68
Examination of Fillet Weld Strength—*Mark D. Bowman and Brian P. Quinn* 98
Discussion—Design of I-Beam to Box-Column Connections Stiffened Externally—*Nestor R. Iwankiw, AISC* 110
Low-Cycle Fatigue Behavior of Semi-Rigid Top-and-Seat Angle Connections—*John B. Mander, Stuart S. Chen, and Gokhan Pekcan* 111
Geometrical and Mechanical Properties of Large Rolled Steel Angles—*Murty K. S. Madugula, Toshifumi Kojima, Yasuyuki Kajita, and Michihiro Ohama* . . 150

AUTHOR INDEX

Adluri, Seshu Madhava Rao and Murty K. S. Madugula
Geometric Properties of Hot-Rolled Steel Angles Including the Effects of Toe Radii and Fillet 68

Bruce, Donald A.
See Kenny, John R. 1

Bowman, Mark D. and Brian P. Quinn
Examination of Fillet Weld Strength 98

Bjorhovde, Reidar
See Kenny, John R. 1

Bendapudi, Kasi V.
Practical Approaches in Mill Building Columns Subjected to Heavy Crane Loads 125

Chen, Stuart S.
See Mander, John B. 111

Chhabra, Surendra J.
Column Base Plate Design Table 12

Daali, M. L. and R. M. Korol
Local Buckling Rules for Rotation Capacity 41

Fielding, David J., Ph.D., P.E.
Frame Response Considering Plastic Panel Hinges ... 31

Geschwindner, Louis F.
A Practical Approach to the Leaning Column..... 141

Hajjar, Jerome F. and Donald W. White
The Accuracy of Column Stability Calculations in Unbraced Frames and the Influence of Columns with Effective Length Factors Less Than One 81

Hjemstad, K. D.
See Pezeshk, S..... 48

Iwankiw, Nestor R., AISC
Discussion—Design of I-Beam to Box-Column Connections Stiffened Externally 110
See also Sputo, Thomas..... 110

Kajita, Yasuyuki
See Madugula, Murty K. S..... 150

Kojima, Toshifumi
See Madugula, Murty K. S..... 150

Kenny, John R., Donald A. Bruce and Reidar Bjorhovde
Removal of Yield Stress Limitation for Composite Tubular Columns 1

Korol, R. M.
See Daali, M. L..... 41

Leon, Roberto T.
Composite Semi-Rigid Construction..... 57

Madugula, Murty K. S., Toshifumi Kojima, Yasuyuki Kajita, and Michihiro Ohama
Geometrical and Mechanical Properties of Large Rolled Steel Angles 150
See also Adluri, Seshu Madhava Rao 68

Mander, John B., Stuart S. Chen, and Gokhan Pekcan
Low-Cycle Fatigue Behavior of Semi-Rigid Top-and-Seat Angle Connections 111

Ohama, Michihiro
See Madugula, Murty K. S..... 150

Pekcan, Gokhan
See Mander, John B..... 111

Pezeshk, S. and K. D. Hjelmstad
Optimal Design of Steel Frames to Enhance Overall Stability 48

Quinn, Brian P.
See Bowman, Mark D..... 98

Sputo, Thomas and Nestor R. Iwankiw
Correction—Discussion of Design of Column Base Plates Under Gravity Load..... 110
